Press Inquiries
press@screentimelabs.com

WHAT IS IT

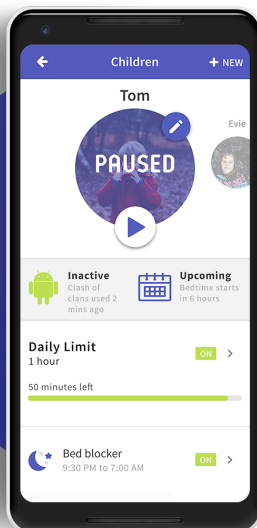

Screen Time is an app that allows parents to remotely monitor and manage their children's device behaviour.

Which means parents can ensure their kids achieve a healthy online/offline balance.

PRICE

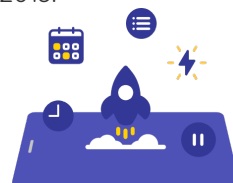

We feel it is important for parents to understand their child's habits first. That's why we provide the monitoring capability **completely free**.

If the parent believes their child needs closer management they can subscribe for as little as £3.99p/m.

LAUNCHED

Screen Time Labs was launched in the Play Store by a father of 3 in 2013.

AS SEEN IN...

Love this app. It is easy to use and helps me monitor my kids' activity extremely well.

Gives me peace of mind so it is worth every penny!

-Torayla C.

It gives our daughter incentive to be part of the team. Prior to Screen Time she would lose track of time...

Now we give additional time for doing things around the home and getting good grades at school.

-J & S B.
